68	0.940	0.972	1.000																			
69	0.971	1.000																				
70	1.000																					

**Notes:**

- Factors should be applied to the deferred compensation including revaluation to the date of early retirement. The amount of revaluation should be determined for the relevant period in a manner consistent with Schedule 7 to the Pensions Act 2004 and associated regulations.
- Factors are shown for age exact at date of retirement.
- For intermediate ages factors should be obtained by linear interpolation for that Normal Pension Age.
- If the relevant Normal Pension Age is not an integer the factors for that Normal Pension Age should be obtained by linear interpolation.
- Ages should be determined in complete years and months rounded to the nearest whole month.
- Separate factors are available for application to lump sums where the lump sum is a separate entitlement from pension under the scheme.
- These factors will be reviewed from time to time and may be changed without notice.
